Magical Book On Quicker Maths is a book that helps its readers tackle the mathematics sections in all competitive exams with minimum effort. In Magical Book On Quicker Maths, M. Tyra provides a new and speedier approach to problem solving, one that is simple to understand and easy to apply. It is aimed at aspirants of all competitive exams conducted by banks, the Union Public Service Commission (UPSC), the Staff Selection Commission (SSC), LIC, CPO, UTI, GIC, and similar organizations. With this book, M. Tyra aims to fulfil the need for faster and more effective methods of solving mathematical problems. The book begins with an introduction on tips for preparing for mathematics examinations, followed by chapters on various mathematical concepts. Some of the topics covered include fractions, surds, profit and loss, ratio and proportion, time and work, simple and compound interest, trigonometry, and data analysis. The book is meant to help students from all streams, including science, commerce and arts. The concepts involved are explained clearly and concisely so that students will find them easier to understand, regardless of whether or not they have good prior grounding in mathematics. The book also contains several illustrations, lending visual clarity to the concepts explained. It covers all the possible types and variations of problems that have appeared in competitive exams in recent times. The author has put in two years of rigorous effort and research to come up with this book. He has derived many of the ideas from Vedic mathematics, number theory, and also through suggestions from his readers and other study resources on the subject. About M. Tyra M. Tyra or Manoj Tyra is an instructor of mathematics. He writes books on problem solving and quantitative aptitude, with a special focus on Vedic mathematics. He has written Magical Book On Quicker Maths. Also, he has co-authored the book, Practice Book On Quicker Maths, with K. Kundan. This book can be used for practicing problem solving and strengthening one's understanding of the concepts from Magical Book On Quicker Maths. He started his own publication with Banking Services Chronicle, a monthly magazine. He has also developed study material for correspondence courses for IIT, CAT, and banking examinations. He graduated in 1990, with a degree in Mathematics from Delhi University. He has taught and mentored several students, helping them prepare for various competitive exams. Magical Book On Quicker Maths is a preparatory book on mathematics for various competitive examinations, like, SSC, UPSC, CPO, LIC, GIC and UTI among others. The aim of this book is not only to acquaint the students with various types of problems given in these examinations and how to solve them, but also to teach the students effective ways to tackle each of the problems faster and more effectively. As known to all, cracking the competitive examinations is as much about knowing the correct answer as it is about time management. Manoj Tyra, therefore, teaches through this book certain easy-to-understand concepts that help the candidates solve even the most complex problems easily and correctly. To this effect, Tyra also explains each concept in clear and easily understandable words so that students belonging from the non-mathematical background, too, do not have a difficult time in understanding them. Certain problems also contain detailed illustrations that lend visual clarity to the explanations. The book has been neatly divided into various chapters and contains clear introduction on different mathematical topics, the important derivations and formulae that aid in understanding the core concept of the subject and solve the questions faster yet correctly. Apart from this, the book also features solved questions of sums that have appeared in the past years in various competitive examinations. Likewise, there remains a list of probable questions (fully solved with proper illustrations) for the students. Thanks to the importance given to Vedic mathematics, this book remains an ideal guide book for all types of competitive examinations.
